

Hands-On

# Avaya CMS

CMS Supervisor, Administration, Reports, and Introduction to Vectors

## Course Description

This course provides an introduction to CMS Supervisor. It is designed to educate contact center supervisors on how the system operates, what their reporting options are and, how to locate and run reports in order to manage the contact center efficiently and effectively. This course covers areas such as reporting and agent skills administration.

It explores the back-end of CMS administration, including back-ups, terminal administration and setting up new supervisor logins. It also introduces attendees to the understanding and writing of vectors.

## Students Will Learn

- **Accessing CMS Supervisor**
- **Dictionary**
- **Exceptions**
